SERVING CHILDREN, FAMILIES & COMMUNITIES

Who we are

NI-Connect aims to support the continuing wellbeing and safety of children and their families by working alongside the community to deliver programs and services.

NI-Connect is managed by Key Assets (Australia) a non-government, not for profit children's services agency, that is committed to creating a child safe organisation. The team at NI-Connect consists of social workers and a family support worker plus an administrator. The team work closely with the local school, health and wellbeing services and other specialist services on Norfolk Island.

What we do

The Child and Family Wellbeing Team can help with:

Information, advice and activities about parenting, life skills, health and wellbeing.

Information, support and guidance in responding to developmental milestones for children and young people.

Fun social and cultural activities and programs for children and young people as well as connecting children, young people and families to other services they may benefit from.

Counselling for children and young people experiencing anxiety or facing other challenges.

Specialist support for children and young people at risk of harm and their families.

Crisis accommodation for adults and children who have experienced domestic/family violence.

Using the centre

This is your centre and we welcome community groups to use the space during the day and also after hours. There are private meeting rooms as well as a large community space. Rooms can be booked free of charge.

NI-Connect hosts a dedicated space for Letl Salan Toy Library which provides access to a wide range of toys and equipment to families with small children as well as a sensory room which can be booked by all members of the community.
