

Home Care Package Services

To assist those over 65 to remain living independently in their own homes, the Australian Government provides funding to home care service providers for the Commonwealth Home Support Program (CHSP) services and the Home Care Package program.

The CHSP program aims to provide entry level service to older people with the most common service types being domestic assistance and social support services e.g. shopping, transport to go shopping and to attend medical appointments.

When a client needs increased care and case management, they may be eligible for a home care package. If you or a loved one believes increased care is required, the best place to start is with your GP who can send a referral to the Aged Care Assessor. The ACAT assessor is usually a health practitioner employed by a health service. NIHRACS employ an accredited ACAT assessor. The ACAT assessor is trained to complete comprehensive assessments to ensure the client receives the appropriate aged care package level.

On Norfolk Island we are fortunate in that, NIHRACS is a Multi-Purpose Service and are not required to submit referrals for home care to the My Aged Care website. This means our clients are not on long waiting lists as occurs in Australia. If you believe you or your loved one need increased care don't hesitate to speak to your GP about a referral to the ACAT assessor for a home care package.

If you would like to speak directly to the ACAT assessor, call Maria McCann on 22091 or 50593.

Successful Healthy Cooking Demonstration

On Tuesday Chef James Garden demonstrated to an appreciative group some delicious and healthy springtime salads, dips and antipasto recipes. Thanks to everyone who came and enjoyed the event and thanks also to Sarah and Tony and their team at Castaway for hosting the event. Special thanks to James for showing us it is possible to quickly prepare delicious and healthy springtime dishes. For those who couldn't make it the recipes can be found on the NIHRACS website under the News tab. Check out www.norfolkislandhealth.gov.nf

Hopefully we will have another healthy cooking demonstration in December with a focus on healthy Christmas cooking.

General Practice Clinic Update

Due to the current restrictions due to the risk of COVID-19 the main entry to NIHRACS is currently locked however the General Practice clinic is still open for business for all your health care needs and our emergency department is still operating. To decrease the risk of COVID-19 our processes have changed

and Medicare is providing funding for telephone consultations where our Doctors can provide their services without you having to present to NIHRACS. If the assessing Doctor decides you need further medical intervention they will inform you on what to do next. To book appointments please phone our reception on 24134. Please continue to help us to reduce the risks of coronavirus on our small community by taking advantage of our telehealth services.

Hours of Operation

Monday- Friday 8.30am – 5pm

Saturday & Sunday Closed

Please note the clinic is closed for lunch from 12.30 – 1.30pm.

Please call 24134 for appointments only during opening hours.

If you require medical assistance outside business hours please phone the hospital on 22091. In cases of emergency please dial 000.

GP Staffing Update

The following locum GPs will be joining our team:

Dr Clive Bishop 19th September – 6th November

Dr Samuel Jones 19th October – 31st January

How long should you book your appointment for?

Most appointments with your GP only require 15 minutes. If you have multiple issues or you think they are complex and will require extensive discussion, please let our receptionist know that you would like a **long appointment**. This will ensure you have the time needed with your GP and will assist us in managing the GPs time and patient flow.

Updating Your Details

When you next visit the GP Clinic you will be asked to update your details. This is to maintain accurate information on your medical record and therefore assist with your consultation. Please arrive for your appointment 5 minutes prior to your appointment to allow time to complete. We thank you for your assistance in this important task.

Test Results and Referrals

Test results can be obtained in a booked consultation. Referrals to specialists must be made during a consultation.

Walk-ins

The GP Clinic operates on an appointment basis. Walk-ins are accepted, however there may be an unavoidable wait as priority is given to patients who have a booked appointment with their Doctor. All patients should present to reception with their current Medicare Card. At times you may experience a waiting period due to doctors tending to urgent or complex medical issues. We apologise for any inconvenience.

Skin Check Clinic

As part of a complete early detection strategy, we recommend that you see your GP once a year, or more often if you are at a higher risk of skin cancer, for a full-body, professional skin exam. To make a booking for the skin check clinic call the GP Clinic on 24134.

Women's Wellness Clinic

The Women's Wellness program continues. Interested women of all ages are encouraged to book an appointment (lasting forty minutes) with Dr Jenny Sexton on Tuesday or Thursday. Please mention 'Women's Wellness' when making the appointment – phone 24134.

Child Health Clinic

Child Health Clinic will now be run from the GP Clinic every Thursday, 8:30am to 4pm by Janine. This clinic is for 0 – 5 year olds and includes: Developmental Assessment, Baby Growth Checks, Emotional and Social Development, Breastfeeding Support, Settling/Sleep Support and Introducing solids.

Smoking Cessation Clinic

It's hard to stop, but with help and support, you **can** quit smoking.

Quitting smoking can be one of the most difficult, yet rewarding, things a person can do. Most smokers say they would like to quit, and may have tried at least once. Some are successful the first time, but others try a number of times before they finally give up for good.

It might take time, it can be hard as your body has become dependent on nicotine, but many people have succeeded in giving up smoking. Become one of them by making a quit plan

The clinic will provide a proven approach to assisting people who wish to either quit smoking or cut down. Every cigarette not smoked is doing good for smokers' health. The clinic uses a multidisciplinary approach to match individual needs.

To make a booking for the smoking cessation clinic call the GP Clinic on 24134.

Asthma Management

Asthma cannot be cured, but with good management people with *asthma* can lead normal, active lives.

For good asthma management:

- See your GP for regular check-ups and work together to manage your asthma
- Understand what triggers your asthma – this can be different for everyone
- Try to avoid or reduce your exposure to these triggers
- Use your medications as instructed by your GP, even when you feel well
- Make sure you are using your inhaler (puffer) correctly, including using a spacer where required
- Follow your written asthma action plan

Ask your GP for a personal written asthma action plan. As well as being a reminder of your usual treatment, an action plan helps you to recognise worsening asthma and tells you what to do in response. If your child has asthma, give copies of the action plan to the school and to anyone else who regularly looks after your child.

Heart Health Check

Do you know what your risk of having a heart attack or stroke is? Having a regular Heart Health Check with your GP will help you better understand your risk of a heart attack or stroke.

Most importantly, your GP and nurse can support you to lower this risk. A Heart Health Check is a 20-minute check-up with your GP to assess your risk of having a heart attack or stroke.

Anyone 45 years and over or 30 years and over for Aboriginal and Torres Strait Islander peoples should have a regular Heart Health Check with their doctor.

To make a booking for a heart health check please call the GP Clinic on 24134.

All patient information is treated as confidential.

Protocol for Visitors entering NIHRACS

- All visitors must be screened at the NIHRACS's entrance as per the current screening protocol. This may be at the front door plus also the dental clinic or allied health entrances (eg Physio, Social Work, Psychology)
- Please remember the staff who do the entrance screening are following the procedures for the safety of our patients, visitors and staff and rudeness is not acceptable
- All visitors coming into the Hospital acute ward and Aged Care Facility must have received the current 2020 Flu Vaccine

- All visitors to the hospital must sign in at the Nurses Station and list a contact phone number
- Hand hygiene before and after visiting must be carried out
- Only 1 visitor at a time (2 visitors if providing end of life support)
- Visits by family, friends or carer to be held in the resident or patient's room
- For our Residents in the Aged Care Facility, please stay in touch remotely with your loved ones, if unable to visit. Phone calls utilising technology (eg Messenger) letters or cards will certainly brighten their day.

Thank you for your understanding during these difficult /uncertain times.

Phyllis Evans. Nurse Unit Manager
